VINTAGE CAR CRUISE DAY Sunday, April 2nd, 2017

Pre-1975 Vehicle Participant Instructions

First Sunday officially kicks off at 10:00am, so we ask that individuals displaying their vehicles arrive between 9:00-9:30am. Vehicles should arrive at the gate near the south end of 8th street on Santa Maria Street. Exit SR 126 eastbound at Palm Avenue, turn right, quick left on Santa Maria Street. Exit SR 126 westbound at 10th Street, turn left under the freeway, right at the driveway behind the hangars. See the map below. The automatic gate will be closed, but the Director of Operations (or a designee) will open it to provide access to the taxiway.

Downloaded from SoCalCarCulture.com

The display area is located on Nine Eagles and Curtis Taxiways, near the museum hangar. All of these hangars are in use, so we ask that you leave three feet between your vehicles and the hangar doors so that they can be opened. Your vehicles should not need to be moved, however we ask that you be aware some vehicles may have to be moved during the day. If a vehicle owner won't be nearby, we ask they leave their keys with someone who will be. If we have overflow, the Director or designee will direct you to additional display space. When you are preparing to leave for the day, please let us know at the Museum so the gate can be opened.

Flight 126 Café at the airport is open First Sunday for breakfast and lunch from 7:00am-2:00pm. Thanks again, and we hope you enjoy your visit to Santa Paula Airport and the Aviation Museum!
