

Spyders in the Garden

2013 Los Angeles County Arboretum
Invitational Display of
Pre 1975 Spyder Automobiles

In 2012 the LA County Arboretum held its first in garden special display of unique automobiles. The event featured Shelby Cobras and was called Serpents in the Garden. This year the focus will be Spyders or should we say Spiders. The event is designed to bring together two worlds. Seeing vintage classic cars set by themselves in a garden setting fascinates both the nature lover and the car-a-holic. The event even has a special challenge for kids. A scavenger hunt sends the kids looking for answers to questions located at each car. They then get a prize of a hot-wheels toy. Another one for the kids is a chance to have their picture taken (by their parents) sitting in a mini spyder car.

This year the event will be held on Sunday, Oct. 6th, the event is designed to appeal to a great diversity of visitors asking questions and area photographers finding the perfect angle to capture the essence of each car with the perfect background of the garden.
