

Noise Level

We want to remind all of the Saturday morning attendees about the importance of keeping the noise level to a minimum. As you know, this gathering typically begins around 6:45am and while we have chosen to start our day that early, some of the adjacent neighbors around us have **not**. So far, most of us are conscious of this, but as we know, it only takes one to forget. Therefore, it is critical to remember the following.

- **If you drive an open header vehicle or motorcycle, please idle into the parking lot.**
- **We highly suggest you use the first row to enter and avoid the second row which is the upper tier near the back wall. That row has a slight incline and inevitably it causes us to throttle through the lot and the exhaust noise echos towards the adjacent condos above us.**
- **Please consider the same rules when leaving the parking lot too. Just because it's 8:30, DO NOT rev your engine. We don't need to remind the residents above of us of our presence.**

We realize some of these requests may seem foolish, but we're committed to remaining a good neighbor to not only the merchants, but to the neighbors in the condos directly above the parking lot.

We do want to thank those who have been respectful and self-policing throughout the morning. We've noticed a tremendous difference in people becoming more mindful about controlling the noise level. Please use common sense and together we'll be able to remain at this location for years to come. Thank you for your cooperation.

Happy Motoring,

Monarch Bay Motor Club

NO SATURDAY CRUISE ON APRIL 18TH

Please note that on April 18th, the Saturday gathering will NOT take place due to another event occupying this lot.
